

# RFgen Software Joins SAP® Partners Solution Marketplace

RFgen Software's Storefront is available at the new SAP EcoHub Solution Marketplace which helps SAP customers discover, evaluate and buy trusted Partner Solutions.

El Dorado Hills, CA – May 8, 2009 – RFgen Software, a leader in automated mobile and wireless data collection solutions, today announced its participation in the SAP Partner's Solution Marketplace. This community-powered solution marketplace makes it easier for customers to discover, evaluate and buy solutions that complement SAP applications, such as RFgen mobile and wireless data collection. As an established independent software vendor offering solutions in support of SAP offerings, RFgen has made serving the needs of SAP customers a top priority.

RFgen's SAP Storefront is at ...

<https://www.sdn.sap.com/irj/ecohub/solutions/RFgensoftware>

The RFgen data capture solution for SAP enhances core SAP capabilities by raising system data capture and ADC accuracies for many operations, including inventory, picking and shipping to nearly 100%. At the same time employee productivity has been shown to be enhanced by 15-30%. RFgen includes functionality for a wide variety of data capture technologies such as mobile and wireless scanning, voice directed picking and put-away, and RFID based operations.

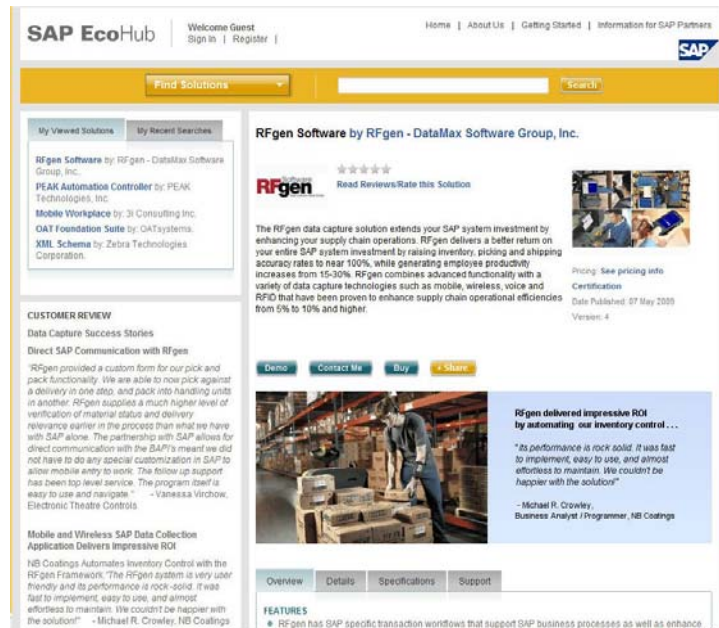

Resources available for download from the SAP EcoHub site include a RFgen solution summary and several customer success stories. Also provided are certification details for RFgen and the ability to request a live demo and / or contact.

## About SAP EcoHub

SAP EcoHub is live at <http://ecohub.sap.com> where visitors can search for solutions in many ways, including industry or solution, key words, relevance or partner. The SAP EcoHub provides customers access to complementary solutions and offerings that work best for their installation of SAP solutions. It leverages SAP's comprehensive ecosystem, where customers and partners can connect.

## About RFgen

El Dorado Hills, California-based DataMAX Software Group, Inc. allows organizations to reduce supply chain implementation costs with the industry's most elegant and flexible mobile and wireless automated data collection (ADC) technology. In business since 1983, software from the DataMAX Group has a proven track record of success when it comes to designing, implementing, and deploying wireless and mobile solutions.

DataMAX's flagship product, the RFgen 'Framework', is a system for delivering wireless and mobile automated data capture solutions. RFgen-enabled solutions can be found in over half of all Fortune 100 manufacturing companies as well as in numerous mid-level and smaller enterprises.

Whether the target is distribution, manufacturing, retail, agriculture, pharmaceuticals, healthcare, or something else, RFgen is flexible enough to meet each customer's unique requirements; a fact to which the company's 2500+ customers and over 30,000 daily users can readily attest.
